Information Paper

SUBJECT: Development of Standard Dental Clinic Plans

1. Purpose. To inform the Commander, USAHFPA about the current status of criteria and planning for Standard Dental Clinic Plans that will support active duty force in the Army's Modularity Units of Action (UA) / Units of Employment (UE).

2. Discussion.

- a. A majority of existing Standard Dental Clinic facilities are near or at the end of their useful service life.
- b. Standard Dental Clinic options must be updated to be accurately sized to efficiently support the Army Modularity UA/UE organization.
- c. Current Medical Facility Design Guide Plates do not reflect the dental module template recommended by USA DENCOM.
- d. Designated USA DENCOM Consultants should be involved in discussions establishing clinic sizes based upon UAs to be served, right-sizing of dental operator modules, space planning and equipment criteria.
- e. A copy of a prototype 24-Chair Standard Dental Clinic Concept Plan has been forwarded to the USA DENCOM Chief of Staff for review and comment.
- f. Task a Corps of Engineers District or Division to have an Architect/Engineer firm under a current Indefinite Delivery Contract (IDC) fully develop the Concept plans into a Standard Design Construction Packages that can be inserted into the DoD MILCON program as required.

3. Conclusion. Commander, USAHFPA should sponsor the formation of a working group involving representatives of USA DENCOM and USAHFPA to define requirements for development of Standard Dental Clinic Plans.
